

The **BIG BOWEL** Event

**Interested in bowel cancer and disease?
Then join us at this free one day event**

This event is all about involvement and engagement with research. It will provide you with a unique opportunity to actively contribute to the latest developments in bowel disease research, from colorectal cancer to Inflammatory Bowel Disease and IBS.

What's on at the Big Bowel Event?

You will have the chance to connect with some of the UK's leading researchers, covering topics from bowel cancer to IBD and IBS.

Session one – Lifestyle and your bowel disease

The latest on lifestyle and bowel cancer, being physically active with a stoma and education and support for people living with IBD.

Session two – Clinical trials, what's new?

Covering trials into the treatment of chronic constipation within the NHS (CapaCiTY), support for people living with IBS (IBS School) and sacral neuromodulation for faecal incontinence (SUBSoNIC).

Session three – Devices, data and developing services

What's new in directing treatment for Crohn's disease, smart stoma bag technology, testing for bile acid diarrhoea, improving services for anal cancer patients and increasing participation in IBS clinical trials.
